

An aerial photograph of a large-scale agricultural or industrial facility. The central feature is a long, light-colored building with a red-tiled roof, flanked by several smaller structures and silos. A white van is parked near one of the buildings. The surrounding land is divided into various plots of different colors, suggesting different crops or stages of cultivation. In the background, a dense cluster of houses and trees is visible, indicating a rural setting.

Developing a 21st century village at the intersection of **Nature x Technology**

Traditional Dream Factory is a co-living, a
regenerative farm and a co-housing village.

Real estate assets

Property 1

- 6000sqm land
- 1400 sqm warehouses with approved architecture plans to build 14 suites, 4 studios, 1 house, co-working, restaurant, makerspace, natural pool

Property 2

- lease with option to buy
- 25ha land
- ~200 sqm farm house
- 150 sqm agricultural house
- 1 mill ruin
- 4000 sqm buildable land
- 0.5 ha existing food forest
- 1 ha native forest reforestation (cork, madroño...)
- 0.4 ha productive market garden
- plans for 7ha Orchard
- plans for 15ha rewilding zone with biodiversity & carbon monitoring

Digital workers and young families are looking for sustainable & connected ways of living, but there isn't enough supply of high quality houses in Portugal.

1M+

Expats with high income moved to Portugal, since 2020.

Traditional Dream Factory offers an innovative and holistic approach, integrating living spaces, regenerative agriculture, and community development.

1500 Visitors since 2021.

€608K Raised from members.

3000 Trees planted.

30+ Events hosted.

WHO WE ARE BUILDING FOR

INNOVATIVE ENTREPRENEURS

Focused on forward-thinking individuals seeking collaborative and growth-oriented environments.

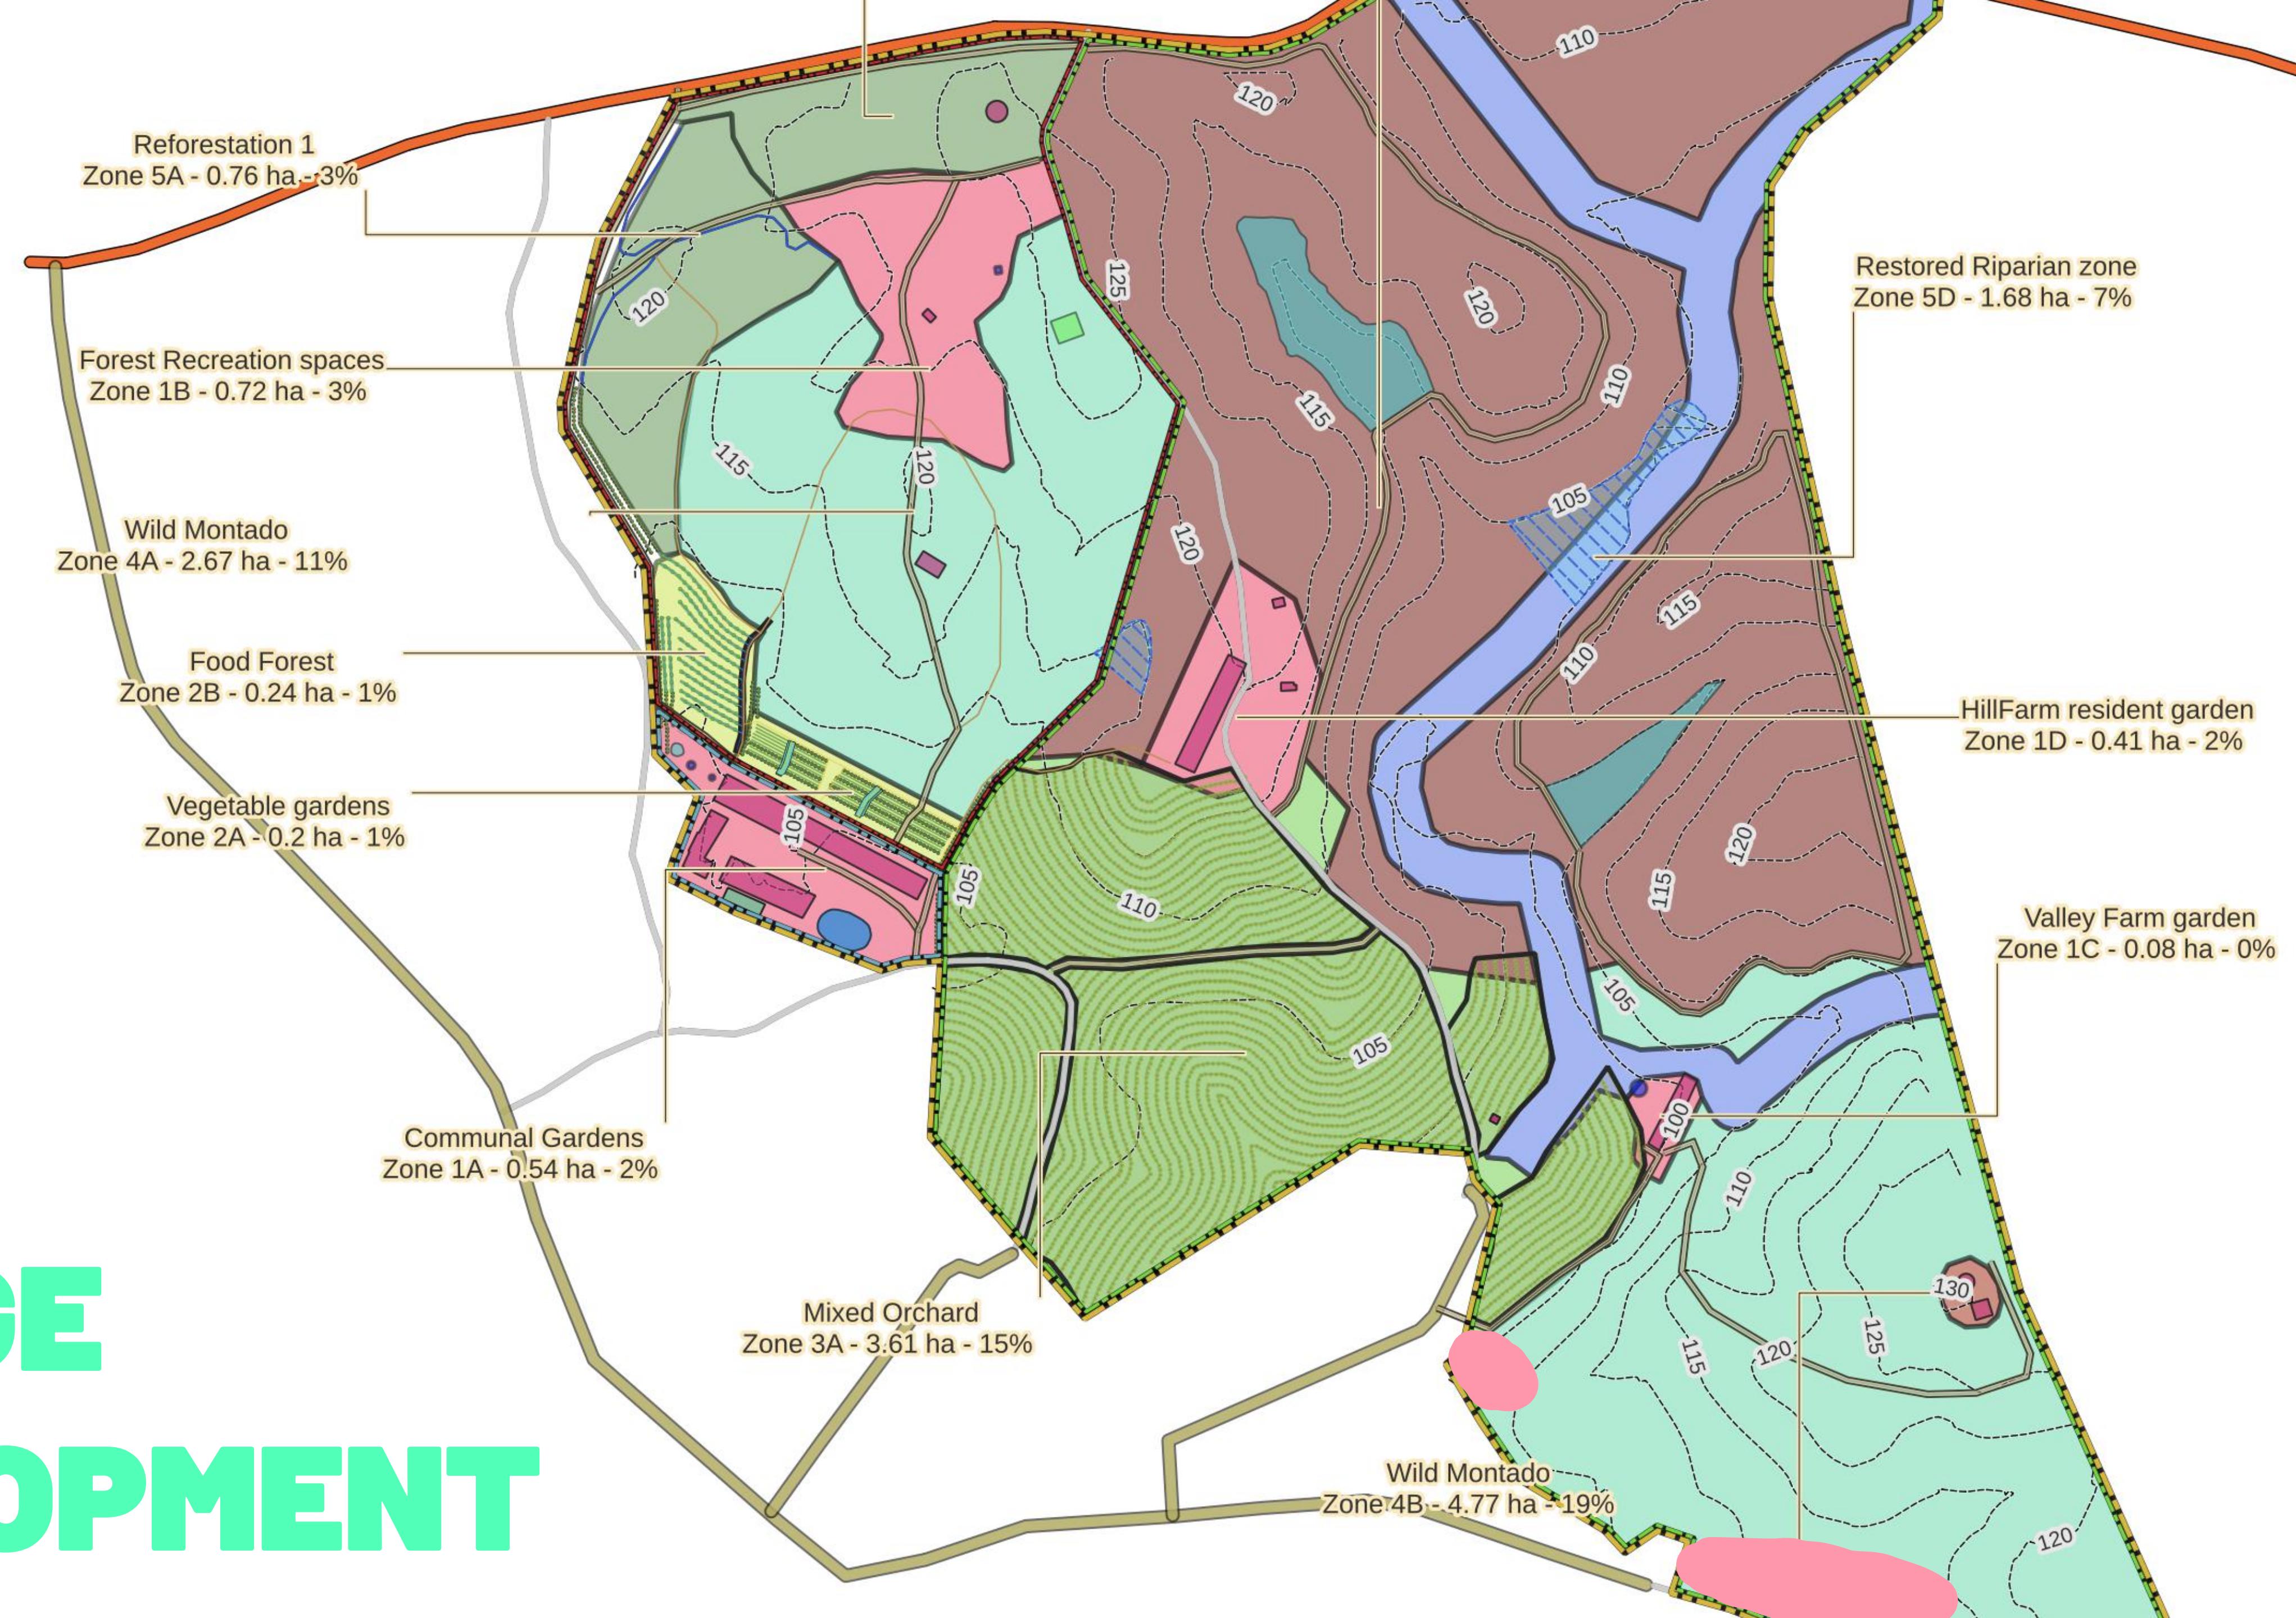

DIGITAL NOMADS

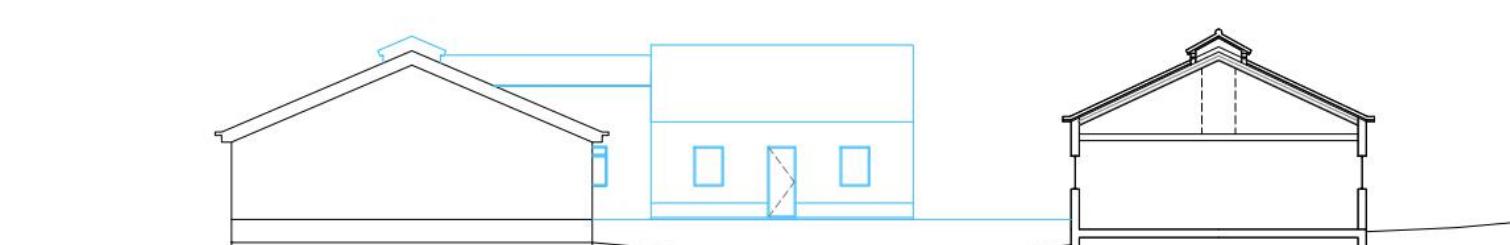

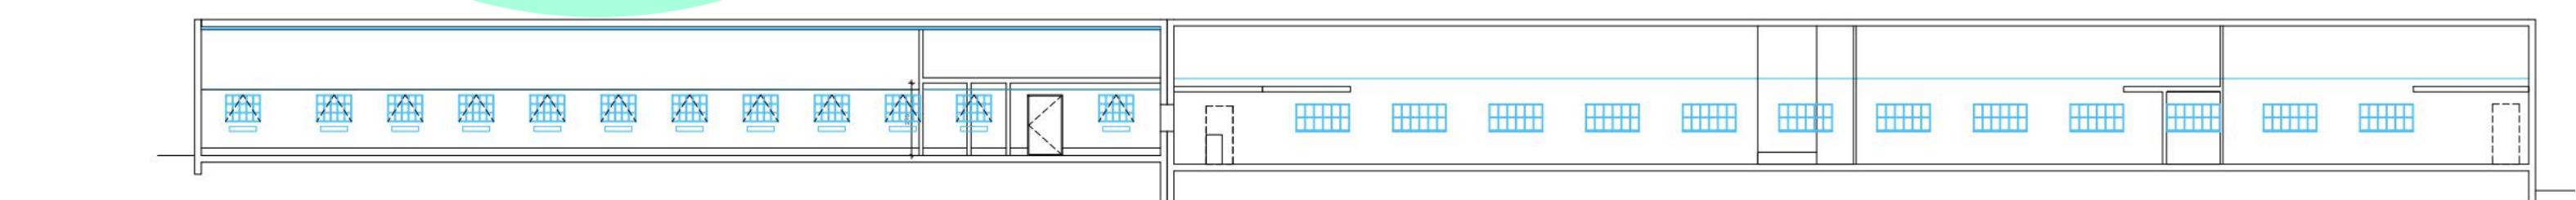

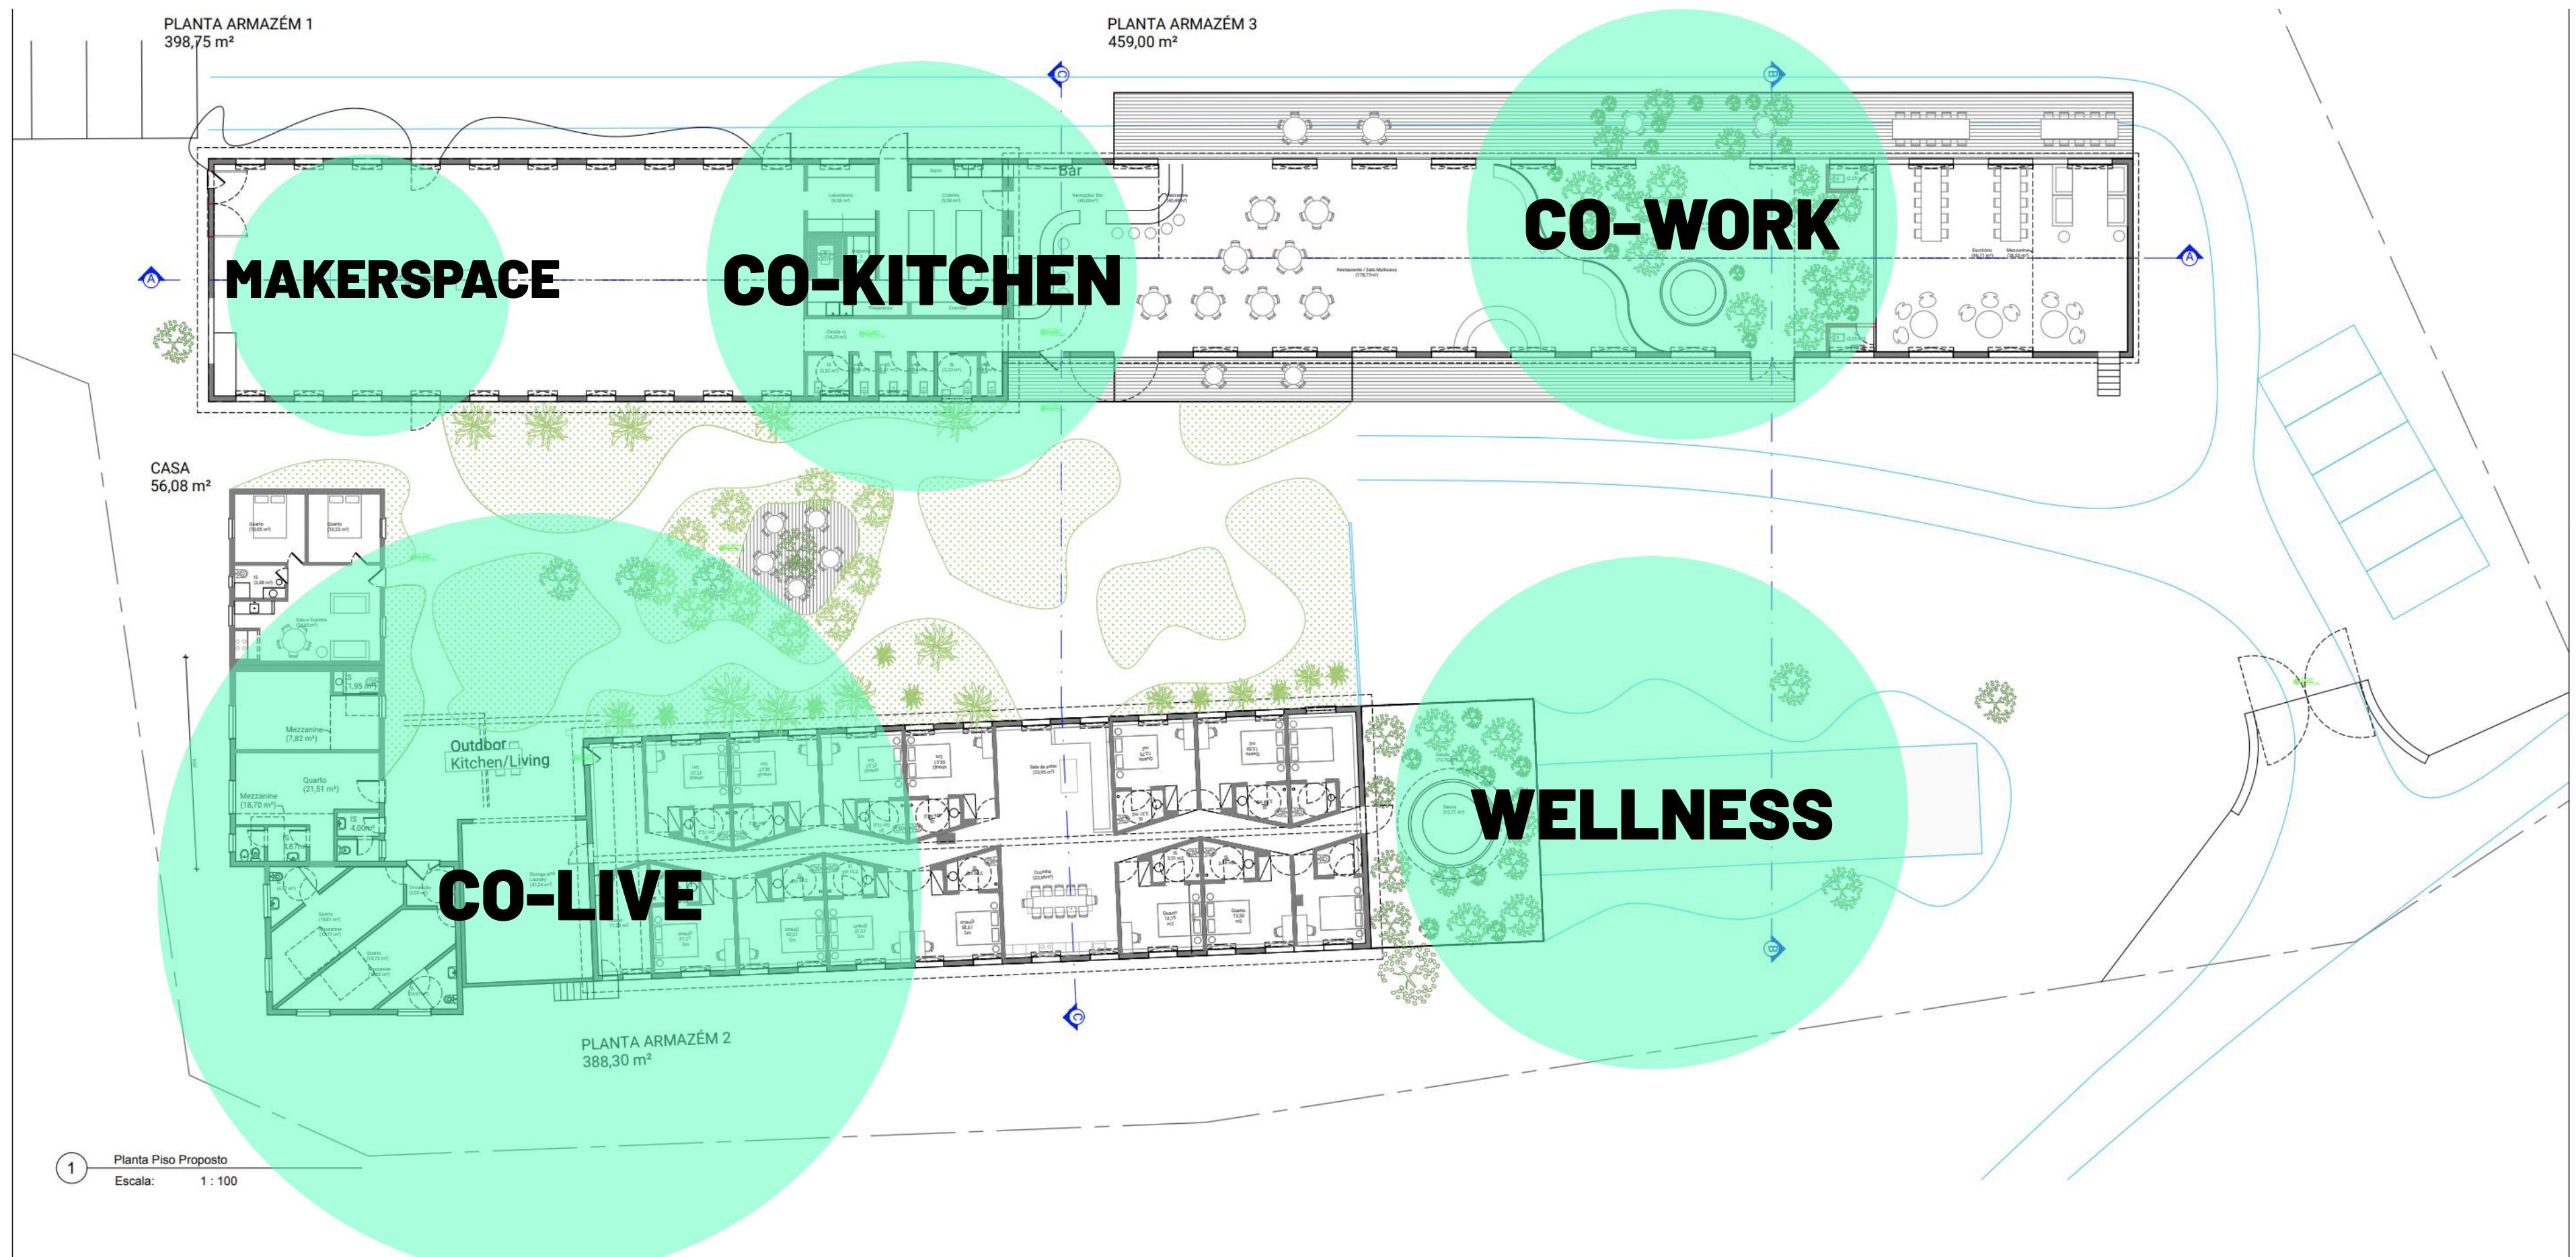

Catering to individuals who embrace flexibility and digital connectivity in their work and lifestyle.

FAMILY-FOCUSED RESIDENTS

Tailored to families valuing safety, education, and community living.

CO-LIVING

✓ plans approved.

**DOING GOOD,
WHILE LIVING WELL**

REGEN LIVING

Contribute to a greener planet and reduce your ecological footprint through sustainable practices.

COMMUNITY BUILDING

Forge lifelong relationships, collaborating with like-minded individuals passionate about creating a better future.

SELF-SUFFICIENCY

Develop essential skills and embrace self-sufficiency, empowering yourself in the face of uncertainty.

MARKET POTENTIAL

There is a growing demand for sustainable and community-based solutions worldwide, with a market hungry for change.

LONG-TERM VIABILITY

Traditional Dream Factory has the potential to become a long-lasting and self-sustaining model of regenerative living.

SOCIAL IMPACT

By supporting this project, you contribute to a positive social impact, positively influencing the fabric of society.

Regenerative agriculture

Water retention landscape

Steward ownership

Carbon capture monitoring

Traditional
Dream Factory
EBF Pledge

Starting with six words — Air, Water, Soil, Biodiversity, Equity, and Carbon — we commit to integrating a holistic view of the health and regeneration of our planet. United behind the Ecological Benefits Framework (EBF), we aim to pioneer a future where finance and technology breathe life into ecosystems, enhance biodiversity, promote equity, and restore balance to our world.

Secured notes €1,5M
At 7-8% interest. min €50k

Grants €1M
Application underway with StartPME

Co-housing & tiny houses €1M
Plan to be developed in 2024.

Token sales €500k
Progressive exit to community

FUNDING SOURCES

OPERATIONS TEAM

SAMUEL DELESQUE

Tech veteran & real estate developer.
Pioneering the regenerative village
movement over 5 years.

ex VMware, Dailymotion

LUNA MANGAN

Interior designer & somatic
sexologist. Passion for creating
community through rituals.

BEATRIZ FONSECA

Pitching in to systemic change through
the creation and operationalization of
rural housing models that combine
care, technology, and planet-positive
impact.

JOSHUA GLASS

Nature connection mentoring.
Youth development. Land
stewardship. Interdisciplinary
making. 

LUCA FRANCO

Builder with a passion for community.

...and a system of volunteering, residencies & stewards supporting smooth operations.

ADVISORS & EXPERTS

ALAN LAUBSCH

Risk analyst, super connector,
nature lover.

ex JP Chase

LARS SCHLICHTING

Crypto Lawyer - Sci-Fi novelist- FinTech
and LegalTech Expert Leading the
digitalization process in the Financial
Industry.

JOANA BEM-HAJA

Senior architect with a passion for low
impact construction and using natural
materials. Part of CRU atelio.

ADAM POSTHUMA

Regenerative Agriculture Consultant.
Experience scaling up productive farms
in the region.

FLORIJN DE GRAAF

Regenerative Systems Engineer -
developing smart systems to optimise
energy, water & waste flows.

...and a robust network of experts, professionals,
and visionaries, believing in our mission.

Products (for exports)

BioChar - Carbon storing soil enhancer, with free energy as bi-product.

Blubucha - Blue Lotus Kombucha, sold as kegs for bars/events. Served 1000s already.

Education courses - digital + physical, permaculture, technology, leadership

Almond butter - 13T expected yield (1308 trees)

Olive oil - 7T expected yield (500 trees)

Mushrooms - 16T expected yield (1 container)

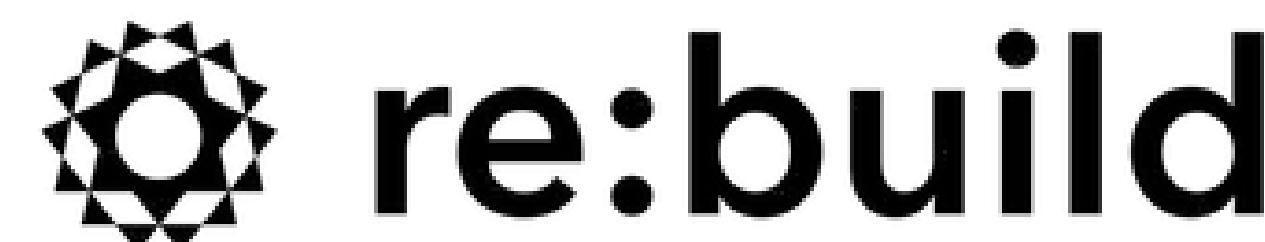

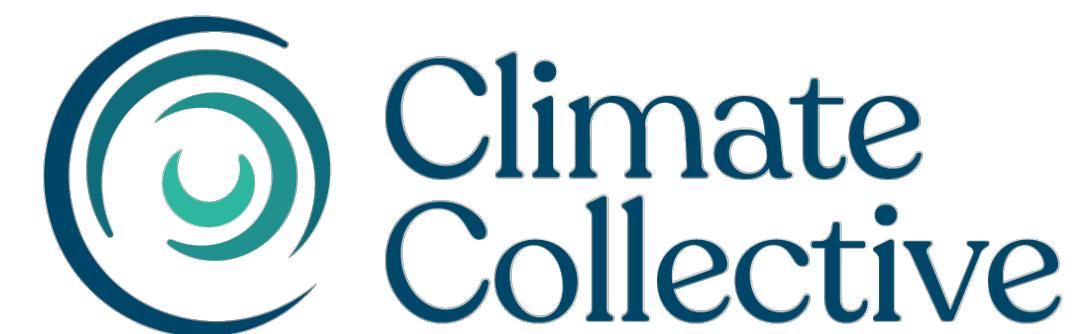

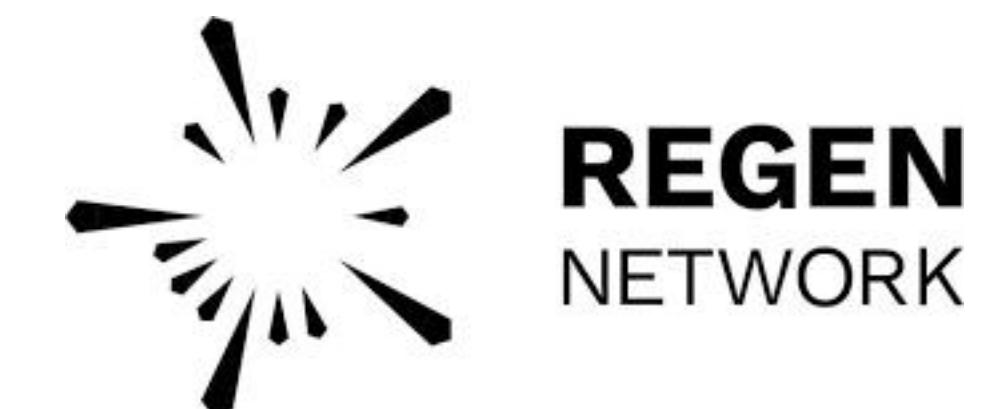

Hotsauce - partnership with Lava, production starting 2024.

...

Building an incubator to bring more products to market from entrepreneurs in the network.

Creating a brand around the TDF ecosystem to be exported to European markets.

PARTNERSHIPS & SUPPORTERS

Charlotte ★★★★☆

One of my favorite eco-village projects out there!

Vinay ★★★★☆

Don't come here. The community is way too kind. The nature is way too peaceful. The ideas are way too beautiful. It'll ruin your life. But maybe that's exactly what you're looking for.

Elizabeth ★★★★☆

My time at Traditional Dream Factory was a life-changing experience, and the people I met there will hold a special place in my heart forever.

Chavis ★★★★☆

I couldn't stop thinking about TDF after my first visit. It was a rare sort of experience that left me genuinely inspired about the future. It might have been the very first time that climate change actually felt like a problem I was empowered to do something about. Great food, too.

Rim ★★★★☆

A special place with character. The charm of TDF is unique. Everything enchants you. You come out different. I will come back next year for sure!

Kyle ★★★★☆

A place for bohemian makers, the intersection of Permaculture and crypto. My kind of place.

JOIN US IN CREATING A REGENERATIVE VILLAGE FOR THE FUTURE

With the initial **€1.5M** investment, we can:

- secure the real estate
- develop the first phase of the co-living
- build 2 lakes and achieve water sovereignty
- leverage EU funding
- establish a cash flow positive hospitality and farming business
- expand our impact and issue ecosystem credits
